

## **Full retailer approvals for QPS Interactive's Wild Jokers**

QPS Interactive, part of the Bell-Fruit Group, has this week received a full set of retailer approvals for its latest Cat C offering, Wild Joker. This eye-catching new model has quickly established itself as a big hit with players thanks to its highly entertaining game play married to a host of compelling features.

Wild Jokers comes stunningly presented in the popular Eclipse cabinet on Scorpion 6 technology. The main feature comprises a 'gamble plus board game' with a Wild Joker Super Feature as a secondary element to the game. The maximum prize is £100 on 25p/50p/£1 stake.

Players can aim to collect three or more Joker symbols to activate the Wild Joker Super feature and they can take the Joker's Gamble if they're feeling brave. They can also fill card hands to win streaks, light three note stacks to enter the board game and access super shots from the board game. Achieving Tic Tac Toe Jokers starts the gamble feature.

Bell-Fruit Group Sales and Marketing Director John McLoughlin commented: "The game design team at QPS Interactive has come up with something of a classic in Wild Jokers. It's a game that oozes entertainment and playability. We're delighted that our partners across the major retailers have welcomed this new model into their estates – it demonstrates quite clearly that there is still a big appetite for non-branded, generic titles among pub players."
